GO_Biological_Process_2021
regulation of transcription, DNA-templated (GO:0006355)
cytosolic transport (GO:0016482)
nuclear-transcribed mRNA catabolic process, deadenylation-dependent decay (GO:0000288)
ciliary basal body-plasma membrane docking (GO:0097711)
cilium assembly (GO:0060271)
regulation of transcription by RNA polymerase II (GO:0006357)
protein phosphorylation (GO:0006468)
retrograde transport, endosome to Golgi (GO:0042147)
vesicle fusion with Golgi apparatus (GO:0048280)
organelle assembly (GO:0070925)
